

Ginbilek

30 capsules

food supplement

Helps to enhance memory and cognitive functions

adipharm

COMPOSITION

Each hard capsule contains:

Nutritional substances: dry extract of ginkgo biloba L., folium (ginkgo leaves) 120 mg.

The excipients are calcium hydrogen phosphate, anhydrous; magnesium stearate; silica colloidal anhydrous.

Capsule shell contents: gelatine, titanium dioxide 171, caramel E 150 c.

PROPERTIES

The Ginkgo Biloba tree is one of the oldest living species, It was first brought to Europe in the 1700's and it is now a commonly prescribed drug in France and Germany. It is one of the well-researched herbs in the world.

It is gaining recognition as a brain stimulant that enhances memory because of its positive effects on the vascular system, especially in the cerebellum. It is also used as a treatment for vertigo, tinnitus (ringing in the ears) and a variety of neurological disorders and circulation problems. Ginkgo may help to counteract the effects of aging, including mental fatigue and lack of energy.

It works by increasing blood flow to the brain and throughout the body's network of blood vessels that supply blood and oxygen to the organ systems. It increases metabolism efficiency, regulates neurotransmitters, and boosts oxygen levels in the brain which uses 20% of the body's oxygen.

The herb has been used in treatment of other circulation-related disorders such as diabetic peripheral vascular disease, Raynaud's syndrome, hemorrhoids and varicose veins. It can also aid in the treatment of insufficient circulation and complications from stroke and skull injuries. Its beneficial effects on the circulatory system also can be of benefit in the treatment of eye and ear disorders.

Ginbilek may be beneficial to support poor memory and concentration as well as healthy blood circulation.

DOSAGE

The capsule is taken with adequate amount of fluid without chewing. Recommended daily dose: Take 1 capsule per day.

PRESENTATION

Ginbilek – hard gelatin capsules are packed in 2 blisters of 15 capsules put in a carton box with a leaflet inside.
