

Healing Touch on Neuronal Performance

The ultimate
bioavailable
form of

Adicobal 500

Methylcobalamin 500 mcg Tablet

Adicobal 500

Pure Neuroprotection

The biologically active, tissue-ready form of Vitamin B12:

Rapid acting & more efficiently absorbed and retained in tissues than the synthetic cyanocobalamin.

Unique ability to provoke nerve regeneration without adverse side effects:

Promote protein & phospholipid synthesis in myelin sheath.

Up-regulate methylation: Reduces high homocysteinemia levels.

Restores normal levels of DNA & RNA in nerve cells

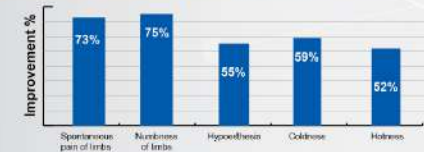

Enhance axonal transport & axonal regeneration

Increase nerve conduction velocity & improves motor nerve conduction

Adicobal 500 provides early improvement in symptoms of diabetic neuropathy

- Improves burning sensation, numbness, loss of sensation and muscle cramp reflexes & reduces sensitivity to pain.
- Improves quality of sleep with better alertness & concentration.

Adicobal 500 restores neuronal health in

Peripheral Neuropathy

Diabetic Neuropathy

Drug-induced Neuropathy

Dementia

3
tablets/day for
a minimum of
2 month
