

Plavikor 75

Clopidogrel 75 mg

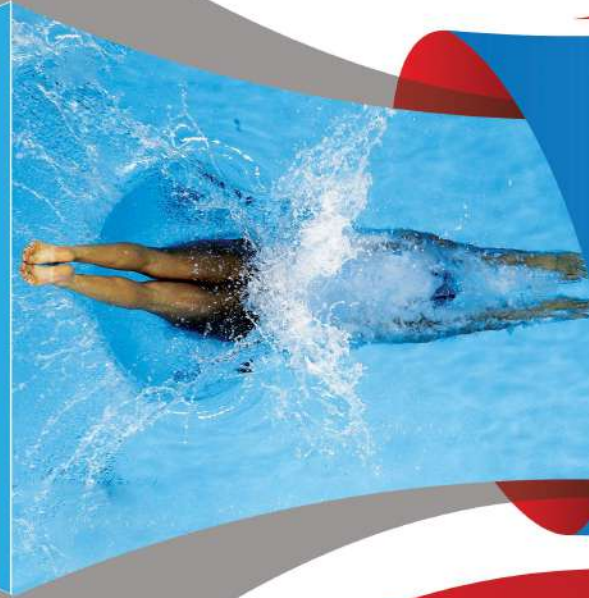

Plavikor 75

Clopidogrel 75 mg

ENSURE Maximum cardiovascular health

- Platelet inhibition can be demonstrated two hours after a single dose of Plavikor.
- Better than aspirin in the secondary prevention of stroke.
- Ensures higher reduction in CV events and death when added to ASA.
- It has more favorable bleeding profile (less bleeding emergencies) than other agents.

A healthy *blood flow*

Healthy heart & healthy CV system

*Specific Breakthrough in Securing
Cardiovascular integrity*
